THE OIL-O-STAT STOVE

Convenient, economical, dependable. We carry a complete line of poultry supplies.

Pittsburgh Steel Company's Products. Fabric, Flower and Field Fence. Poultry netting, Barbed Wire, Steel Posts, etc.

ANNOUNCEMENT

For the Year 1937

Our 20th Anniversary

In sending you this booklet, we mark our 20th year in our present business.

In establishing this business we naturally had ambitions and ideals. We have tried to combine those ideals with a business policy based on quality and service.

We feel that a well stocked Seed, Implement and Farmers Supply Store renders a distinct service to the community which it serves, if it does, then one of our ideals has been attained.

It is not possible to enumerate the many items which go to make up our varied stock, we call attention only to the well known lines we handle which we believe will bear out our statement that we aim to carry only quality products.

John Deere Farm Machinery—Myers Pumps and Hay handling equipment — DeLaval Milkers & Separators—Papec Ensilage Cutters—Hay Choppers and Feed Mills—Simplex Equipment—Maytag Washers and Ironers—Macomb Line of Poultry Equipment—Stewart-Warner and Crosley Refrigerators and Radio, also Grunow Radio—Esso and Haverly Milk Coolers — Gleckner Harness and Collars.

In seeds we buy from sources which we have found to be the most dependable; importing most of our root crop seeds and many flower seeds. Buying most of our ensilage corn from Pennsylvania and all grass and clover seed from old established houses whose trade name and quality is well known, and using only seed known to be adapted to this territory.

Our stock of vegetable, flower and field seed is complete, we ask you to come to us for your requirements, and can assure you of good seeds that average lower than mail order catalogue prices.

Send in mail orders, we pay the postage. Vegetables not listed will be 5c per packet.

We are always glad to assist in seed selection as well as help in spraying or other garden problems.

Because of a constantly changing market and a desire to quote closely, I do not list prices on vegetable and field seed in quantity. I am glad to quote promptly to all interested inquirers.

BEETS

Egyptian Blood Turnip—Early, turnip shaped, flesh deep blood red.

Crosby's Egyptian—Smooth and round in form, matures very early.

Crimson Globe—A bright red, globe shaped variety, early maturing, excellent for market.

Detroit Dark Red — The standard main crop variety, on account of its extra deep coloring is used extensively for canning.

MANGELS

Mangels—To produce milk at lower cost grow Mangels for feeding. Yields of 40 to 50 tons per acre are common. They are particularly good for young stock and poultry.

Danish Tarjoe—Larger and somewhat darker in color than Golden Tankard.

Golden Tankard—One of the best yielding and most desirable mangels.

Giant Half Sugar — An excellent cooking beet when small, and attain a size of 10 to 12 in. Very desirable for poultry feeding.

Sludstrup—One of the largest growing and most desirable for stock feeding. Per lb., 65c. All varieties.

Chicken Lettuce — Produces an abundance of green feed during entire season.

LETTUCE

Grand Rapids—One of the best early varieties and if transplanted will produce compact bunches of very tender fringed leaves.

Prize Head — Large, loose heads of finely crimped bright green leaves shaded with brown.

Way-a-Head—An early heading variety in which the center is finely blanched to a rich buttery yellow.

Big Boston—The largest heading variety, particularly desirable for late season growth, as it heads up much better in cool weather.

Romaine or Cos Lettuce—Makes a compact upright growth, leaves blanched white inside, very crisp and tender.

All varieties, pkt., 5c; oz., 15c.

Send in mail orders; we pay the postage.

Vegetables not listed will be 5c per packet.

CUCUMBERS

Early Cluster—One of the best and most prolific pickling varieties.

White Spine—Very uniform in size and particularly desirable for slicing.

Fordhook Famous—One of the best of the Burpee's specials, attaining a length of 12 to 14 inches, always firm, crisp and of most delicious flavor.

Long Green—Combines good pickling and slicing qualities.

Davis Perfect—Very dark green, resembling hot-house grown cucumbers, as they have few seeds and are excellent slicing variety.

Big value packet, 5c; oz., 20c.

SQUASH

Giant Crookneck—As early as the common while they attain much larger size.

True Hubbard, Golden Hubbard and Warted Hubbard—Excellent keepers of splendid quality. Big packet value, 5c; oz., 20c; lb., \$1.35.

Delicious—A splendid winter variety, dry, sweet and fine flavored.

BEANS—WAX AND GREEN PODDED

Wardell, Kidney Wax — An early flat podded variety, one of the best.

Burpee's Pencil Pod Black Wax—Very productive, early and entirely stringless.

Burpee's Brittle Wax — The earliest of all wax beans, round, fleshy pods, of superb quality.

Bountiful—Flat green pods, early.

Refugees—Round green pods, very desirable for canning.

Henderson's Bush Lima—Earliest and most dependable lima.

Big value packet, 10c; lb., 30c.

POLE BEANS

Kentucky Wonder or Old Homestead — Long green pods, very productive.

Golden Cluster Wax—Flat, wide pods, stringless and of excellent flavor.

Early Leviathan—An early pole lima.

Big value packet, 10c; lb., 40c.

ONIONS—BURPEE'S SEED

Prizetaker — Somewhat later but much larger than the Danvers.

Big value packet, 10c; oz., 30c; lb., \$2.50.

Sweet Spanish—Large, pure white, a very mild, crisp, onion.

Send in mail orders; we pay the postage.
Vegetables not listed will be 5c per packet.

Yellow Globe Danvers—The best table and general market variety. Packet, 10c; oz., 20c; lb., \$1.75.

Southport White Globe—One of the best keeping and best yielding white onions. Big value packet, 10c; oz., 30c; lb., \$2.65.

Red Weatherfield—The standard variety, always a desirable cooking onion. Big value packet, 10c; oz., 25c; lb., \$1.85.

Ebenezer or Japanese—Very mild and tender, particularly good keeper.

CELERY

Golden Self-Blanching — The best early self-blanching variety. Packets, 10c; 1-2 oz; 40c.

White Plume—An excellent early sort, but not desirable for keping. Big value packet, 10c; 1-2 oz., 20c.

TOMATO

Bonney Best—Early, large fruit, solid red and do not crack.

Chalk's Early Jewel — One of the earliest and smoothest light red sorts.

Earliana — The standard early variety and one of the earliest.

Matchless—Best large-fruited main crop tomato.

Ponderosa—A very large, dark red, main crop variety.

Golden Queen—Standard main crop yellow fruit-variety.

Marglobe—An outstanding new variety, particularly disease resistant.

CARROTS

Chantenay or Model—Finest quality, especially desirable for canning.

Danvers Half Long — One of the best market varieties.

Amsterdam Forcing—An excellent quick growing variety.

Large White Belgian — Grown extensively for rabbit feeding.

Big value packet, 5c; oz., 15c.

RADISH

Earliest Scarlet Button—Small, extra early.

Scarlet White Tip—Quick growing and a good market variety.

White Icicle—Very crisp and tender, retaining these qualities much longer than other varieties.

Winter Radish—Round Black Spanish.

Big value packet, 5c; oz., 15c.

Send in mail orders; we pay the postage.

Vegetables not listed will be 5c per packet.

TURNIP

Purple Top White Globe—Desirable as a table or feeding variety.

White Rutabaga — One of the best large table varieties.

Yellow Rutabaga — An excellent cooking sort, preferred by many to the white. Either of above, oz., 10c; 1-4 lb., 20c; 1 lb., 75c.

Long White Cowhorn — A long yellow feeding turnip, 1 lb., 60c.

Purple Top Strap Leaf—Good for cooking when small, and a desirable feeding variety. Oz., 15c; 1-4 lb., 35c; 1 lb., 50c.

COST AND QUALITY

My seed is put up in 5c packets, containing as large quantity as any of the commission seed firms, many of whom sell their packets at 10c. Seed is put up as used, from new stocks, thus assuring our trade of fresh seed of high germination and strong vitality.

Comparison of prices with those shown in other seed catalogues will indicate that the average is decidedly in my favor with the added advantage that you can buy when needed.

The quality of seed is the best, and will be found dependable in every particular. On account of a constantly changing market I do not quote on field seed. Price is as low as will be found elsewhere on similar quality.

PEAS

Laxton's Progress—Medium height, somewhat earlier than Thomas Laxton.

Nott's Excelsior—One of the largest pod dwarf varieties and one of the best yielders.

Premium Gem—An improved variety, producing well-filled pods.

Gradus — The best and earliest of the larger growing varieties.

Thomas Laxton—Similar to Gradus, both growing about 2 to 3 feet.

Laxtonian—Largest pod of the dwarf varieties; used extensively as an early market variety.

Dark Pod Telephone—The most desirable later variety.

Bliss Everbearing — Very prolific, continues to bloom and bear longer than most varieties.

Champion of England—Big yielding late variety. All varieties, 25c lb.

Special prices in quantity.

Write for prices by the bushel for field planting.

Send in mail orders; we pay the postage.

Vegetables not listed will be 5c per packet.

SWEET CORN

Golden Hummer—A new early yellow variety, larger than Bantam and ten days earlier.

Golden Bantam	per lb., 25c
Black Mexican	per lb., 25c
Early Minnesota	per lb., 25c
Howling Mob	per lb., 25c
Hickok Improved	per lb., 25c
Stowell's Evergreen	per lb., 20c

Either of the latter varieties for field planting at \$4.00 per bushel.

ASGROW GOLDEN COLONEL

A 1936 all-American winner. This new corn is a cross of Golden Bantam with Country Gentleman and retains the finer qualities of both.

FIELD SEEDS

Our stocks of field seeds have been selected with care, are the best obtainable in every instance and are seeds adapted to this territory. By early and ample purchases we are well prepared to supply customers with highest grade seeds of proven purity and good vitality.

Timothy — Conklin's "King" and Stanford's "Liberty" brands, 99.65 per cent pure.

Clover—Medium Red; United States verification of origin.

Alsike—Imperial brand; highest grade seed.

Alsike and Timothy Mixture—This is clean seed and is sold at a very low price.

Alfalfa—Canadian Variegated and Grimm. The latter Michigan grown, United States verification of origin and all in sealed bags.

White Blossom Sweet Clover — Particularly desirable in a pasture mixture.

Pasture Mixture — We have a special pasture mixture containing the proper proportion of early grasses, desirable clovers and those grasses which will withstand dry weather and late summer conditions.

Special Lawn Mixture—Made up of those grasses which provide a short thick growth, also adapted to shady places. Our mixtures are made up of the best varieties, some of them imported, for producing a thick velvety lawn.

Send in mail orders; we pay the postage.

Vegetables not listed will be 5c per packet.

Other grasses which we carry in stock are Red Top, Orchard Grass, Kentucky Bluegrass, European and Creeping Bent, Sheep's Fescue, Wood Meadow Grass, White Dutch Clover, Alsike and White Dutch mixture, making a desirable pasture clover; also Alsike and Timothy mixture.

SEED GRAINS

Early Wonder Oats	Ithacan Oats
Oderbrucker Barley	Alpha Barley
Marquis Wheat	Cornellian Oats
Canadian Swedish Oats	Japanese Millet
Speltz or Emmer	Buckwheat

NITRAGIN SEED INOCULANT

For all clover, peas, vetch, beans, etc.
It pays to inoculate all legumes.

SOY BEANS

We have—

Cayugas, local grown, where matured beans are wanted.

Wilson Blacks for Soy Bean hay or to plant with corn.

Soy Bean Hay, Cut before beans have ripened, has a greater value in protein and fats than Alfalfa hay.

Soy Beans, cut green and packed with corn for silage, will make a perfect ration of much greater value than corn alone.

We urge the use of Oats, Peas and Vetch as well as Soy Beans, Sunflower, Soudan Grass and other forage crops to ward against another hay shortage.

Ask for special booklet on Soy Beans.

MILK AT LOWER COST

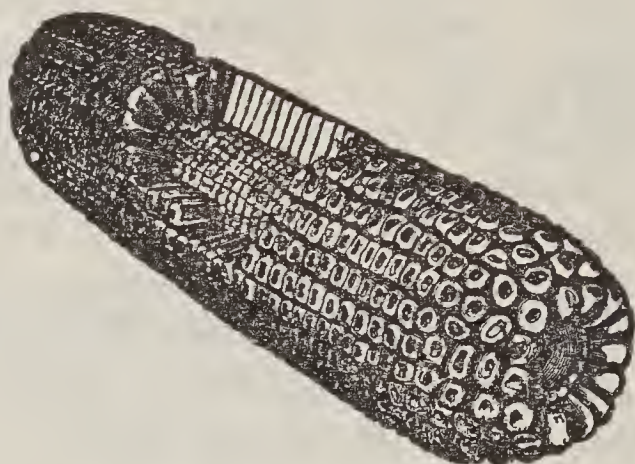

Four crops that will help do this are Alfalfa, Mangles, Cabbage, Soy Beans. Either of them together with good silage produced from early maturing corn will reduce the cost of making milk.

The drought of last year proved the value of sunflowers when planted with corn, as they continued to grow right through the dry weather and boosted the tonnage as well as the feeding value. We have Sunflower seed.

COME TO US FOR GOOD SEED CORN

Our principal sales of corn for silage are the **Sweepstakes** type. Our stock of this superior corn comes to us from one of the largest seed corn houses, which is equipped with every facility for curing and handling corn. This insures clean seed, properly graded and of dependable germination. The Sweepstakes corn gives a satisfactory green tonnage, ears heavily and reaches a desirable stage of maturity at the time of silage harvest.

We have assurance from our growers that the quality as well as germination of our West Branch Sweepstakes seed will be up to the highest quality of former years.

Lancaster County Sure Crop—This is a Southern Pennsylvania grown, early maturing variety of the Sweepstakes type. It makes a growth of stalk, leaves and ears similar to this variety and matures ears to about the same degree.

Cornell 11—One of the earliest dent varieties grown in the East.

We will have—

Reists Sweepstakes

Reists Eureka

Reists Cornell 11

Reists Mammoth Yellow Sweepstakes.

We handle only locally grown flint corn which is certain to mature in this locality.

CERTIFIED SEED POTATOES

Rurals—This variety takes the place of No. 9's, Heavy Weights, Rural New Yorkers, Sir Walter Raleighs and some other less known strains, which are practically the same and have been standardized by the New York Potato Growers' Association under the name of Smooth Rurals.

Irish Cobblers — One of the best early White varieties, always has a good market for seed stock.

Rural Russets — An excellent cooking variety and good yielder.

Green Mountain—One of the best market varieties, uniform in size and of finest quality.

In addition to the above certified seed we always have home grown stock of standard varieties.

Copenhagen Market—Golden Acre—Glory of Enkheizen—All from one of the oldest cabbage seed growers in Denmark.

Imported and American grown Ballhead and Red. If not already a user—buy at least a part of your requirements of us and get a comparison. Ballhead, \$3.25; Red, \$4.00.

Our seed is treated.

BERRY PLANTS

Strawberry Plants: Dr. Burrill, Gibson, Senator Dunlap, 35c for 25, \$1.15 per hundred; **Black Raspberries,** Kansas and Plum Farmer, 75c per doz., \$3.00 per hundred; **Columbias,** \$1.25 per doz., \$6.50 per hundred. Prices of any other kind of berries or different varieties of the above quoted on request; special prices in quantity.

Grafting wax, in 1 lb. and ½ lb. cakes.

FRUIT TREES

Apple —All standard varieties	\$.65
Pears —All standard varieties	\$.70
Cherries —All standard varieties	\$.90
Plums —All standard varieties	\$.90

Lower price in quantity. We can supply any fruit or ornamental trees or shrubs.

One woodchuck can do a lot of damage. Cyanogas is a quick, easy and inexpensive way to get rid of them. We have it in 1 pound and 5 pound cans.

INSECTICIDES AND FUNGICIDES

We carry stocks of spraying and dusting material for the control of all eating and sucking insects, also for control of mould, mildew and the various forms of blight.

Semesan — A mercurial disinfectant for the control of seed plant and soil diseases, a preventive of many crop diseases, an aid to better germination of seed and stronger vitality of plants.

GALVANIZED WATER TANKS

Round end storage tanks from 2 to 8-barrel capacity or larger. These tanks are made of heavy galvanized iron with angle iron frame and supports, well riveted and soldered. Suitable for use as stock watering or for sap or water storage. Reasonably priced.

Harrow Points—Double wear points can be attached to any harrow tooth. Price, each, 35c. Harrow shoes with bolts, \$2.75 per set.

STEWART CLIPPERS

The new Clipmaster electric for \$16.95.

We have the hand operated machines for \$12.50 and second-hand re-conditioned clippers as low as \$5.50.

We grind clipper knives.

Gleckner 1000 "Thousan" 1000 Style "P"

1 $\frac{3}{4}$ inch Standard Farm Harness from \$39.50 up. Higher in quality, lower in price.

HORSE COLLARS

We carry an extensive line of collars ranging from the tick faced type at \$2.50 to the best grain leather collar at \$8.50.

We can fit your horse and your purse.

GOODYEAR MECHANICAL RUBBER GOODS

Glide and Klingtite belting in endless and cut length. These belts are frictioned surfaced, will not shrink or stretch and stand up to the work for years of satisfactory service.

FOR THE DAIRY

B-K Sterilizing Solution, H-T-H Sterilizing Powder, Wyandotte Cleanser, Milking Machine Hose, Milk Scales, Brushes, Ties, Ear Tags, Disinfectants, Stock food, Kow-Kare, Dr. Naylor's products, LePears Stock Food.

VENTILATING WINDOWS

The air flow window using Vita-glass, for stables, poultry houses, etc.

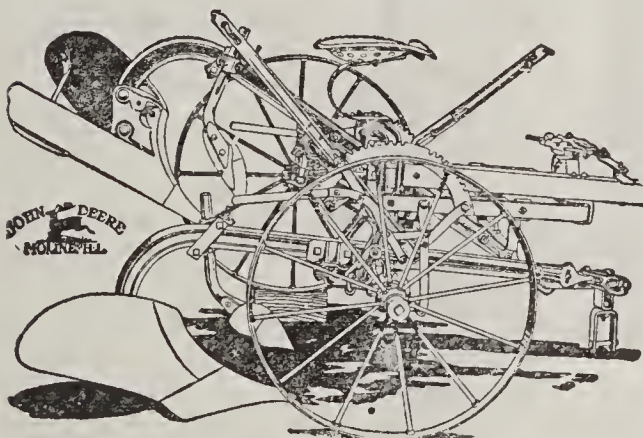

MILK COOLERS

The cabinet type, also insulated concrete vat—using Servel Compressor. Get our prices on Esso Cabinet with Brunner Compressor.

The John Deere trade mark is the best known implement trade mark in the world. It is the certificate of character that represents John Deere prestige—the good opinion of enough people based on actual field experience to make John Deere implements the world's standard for nearly a century.

Believing that one full line is better for purchaser as well as dealer, and believing that the John Deere is the one best line, we sell John Deere implements exclusively. Every implement bearing this well known trade mark is made in a John Deere Factory, and the purchaser is assured of prompt repair service during the life of that implement. You are not buying an orphan when you buy a John Deere product.

Here's the latest model of the widely-used John Deere - Syracuse Two-Way Sulky Plow. Bottoms especially adapted to soils in this section. Special features make this the easiest plow to control you ever saw. Get on

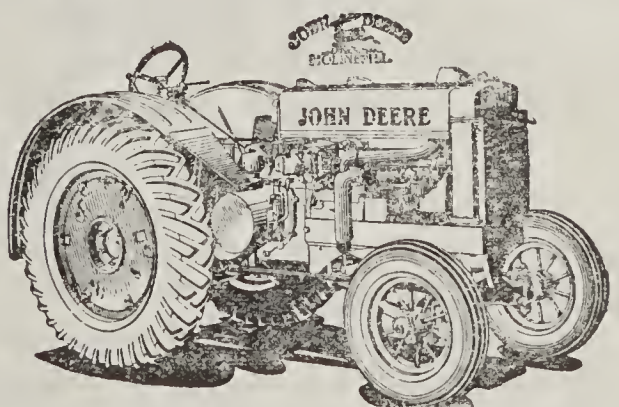

the seat and try it. Sizes 12, 14 and 16-inch.

In addition to these improved two-way plows, we have a new two-bottom plow for the new General Purpose Tractor, and the No. 5 three-bottom plow, as well as walking plows. All tractor plows use the same bottoms, made by the Syracuse Chilled Plow Company. Shares, moldboards and other wearing parts we always have in stock.

JOHN DEERE GENERAL PURPOSE TRACTOR

Does All Farm Jobs Well

The John Deere Tractor enables you to handle larger acreage with less help, in less time and at General Purpose Tractor, with 3-row planting and cultivating equipment, will enable lower cost. You have better assurance of bigger crops because you can take full advantage of favorable weather and soil conditions. You can do the work when it should be done.

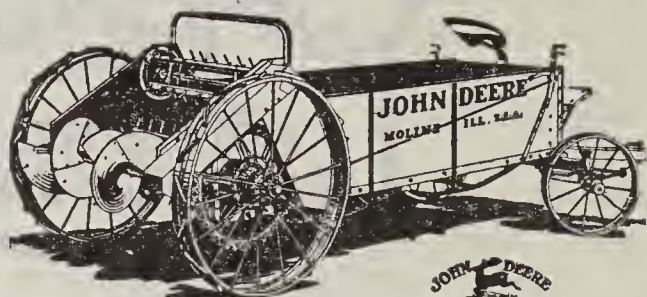

THE NEW JOHN DEERE SPREADER

With the Beater on the Axle and Box-Roll Turn

The New John Deere—the only spreader with the beater on the axle and box-roll turn, is a real money-maker for every farmer who raises livestock. It's easy to load, easy to pull . . . it

does better work and lasts longer. Users say that it pays for itself many times over during its long life.

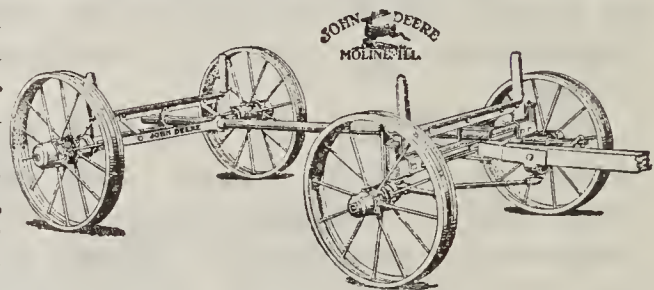

Lime spreading attachment, endgate attachment, tractor hitch, and brake can be furnished.

JOHN DEERE FARM GEARS

Starting with steel wheel farm trucks at \$47.60.

Then the well known Reliance Gear 30 in. forward, 36 in. rear, wood wheels, also the All Steel Handy Farm Truck and All Steel Trailer Truck.

The Safety Fertilizer attachment distributes any standard fertilizer at time corn is planted, in quantities up to 700 lbs. per acre. Thrown in and out of gear automatically when planter front is raised or lowered; can be thrown out of action without stopping team or interfering with planting. Fertilizer is deposited in wide ribbons

at each hill, most of it falling on both sides of the seed and having a layer of soil between seed and fertilizer. Fertilizer does not come in direct contact with the seed.

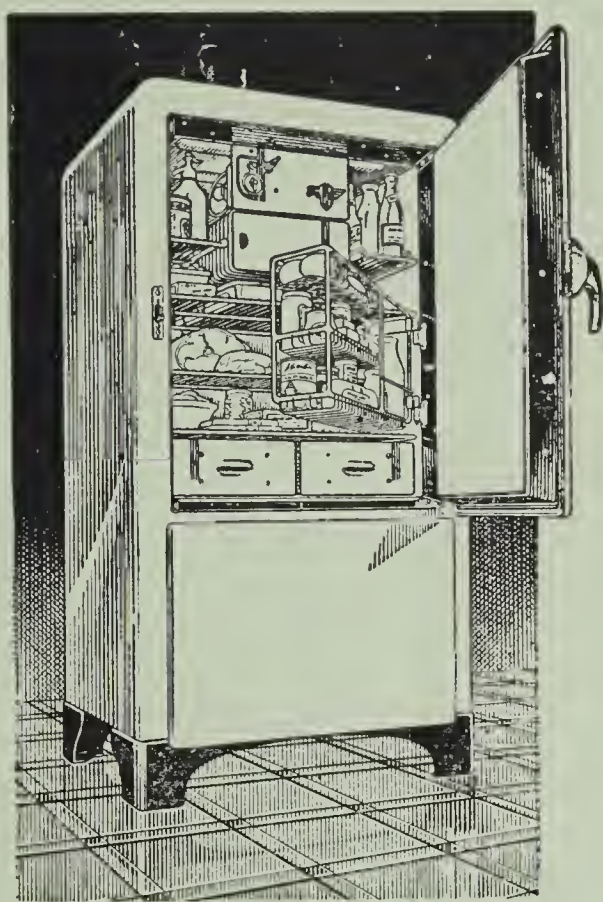

REPAIR ITEMS

You appreciate time and labor saving as well as convenience in being able to obtain from stock such items as sections, guards, knife heads, pitman boxes and all wearing parts of mowers, binders and corn harvesters. It is equally convenient if you can obtain quickly, usually from stock, binder canvass, slats, chain links, etc.

MACHINERY REPAIRS

You will find we give careful attention to all repair orders, as we consider this an important part of our business.

We believe the goods enumerated possess especial merit, and as we take advantage of every possible buying discount, are in a position to make favorable prices.

The Stewart-Warner Refrigerator with Sav-a-Step and many other convenient features. Look them over before buying. Get their record for low cost operation.

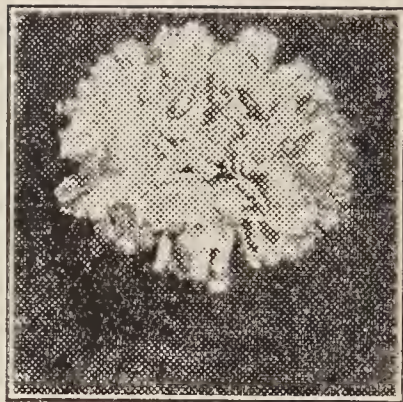

MAYTAG

Still the World's best washer. We have them with gasoline power as well as electric.

See the special 1900 washer—\$49.50 with pump.

New and Old FLOWERS for 1937

Our stocks comprise the new All American winners for 1936, as well as two previous years, and include other new developments of Dreer, Burpee and other flower growers.

We call particular attention to the 1936 winners – Zinnia Star Dust, Verbena Floradale Beauty, Marigold Royal Scott, Calendula Callarette, Petunia Bergundy, Larkspur White King.

As usual, we specialize in Burpee's best Sweet Peas and our own imported asters.

Lawn Mowers

Lawn Seed—Our seed is purchased from reputable growers, is of known germination and is blended in the right proportion to suit different locations and soil conditions. The germination of each kind of seed used in our mixture is shown on the package. Our regular mixtures are Standard, Special Lawn and Shady Lawn. Other mixtures blended to suit different conditions.

Lawn Accessories—Fertilizer and Lime Distributors, Rollers, Mowers, including power mowers, Hose, sprinklers.

Lawn Fertilizers—For quick, dependable results use Vigoro — the complete plant food. We are County distributors of Vigoro and carry all sizes from 14-ounce packages to 100-lb. bags.

Humus—Decayed peat; for lawn building and general soil improvement.

Pep-to-Lizer—For lawn and garden, particularly desirable for stimulating quick growth of lawns as it can be used safely for top dressing.

Bone Meal—For year to year results on lawns or perennial plants and shrubs, this is a most desirable fertilizer. Sold in any quantity.

Nitrate of Soda and Sulphate of Ammonia—For producing quick growth of lawns or gardens, particularly for forcing early vegetables.

Peat Moss—For lightening and improving heavy soil, for use as a mulch and for preparing soil for planting.

Ground Limestone—For correcting soil acidity.

Commercial Fertilizer—For general garden use, also for top dressing lawns, inexpensive and gets good results.

Insecticide; Fungicides—In both spraying and dusting material for chewing insects, for lice and mites and for mould, mildew, blight.

TREES, SHRUBS, ROSES AND PLANTS

Roses—Twelve of the new patented novelties including Nigrette and Carrie Jacobs Bond. Prices on all of these are much lower than formerly. Our assortment gives a wide range of colors and types.

Everything in ornamental trees and shrubs, also fruit trees, berry plants, etc.

Lawn Ornaments—Fence, Arches, Arbors, Trellis, Bird Baths, Bird Houses, etc.

SKINNER'S SEED STORE 57 North Broad Street, Norwich, N. Y.

Truslow Farm Chicks

We are local distributors of Truslow chicks — White Leghorns, Barred Rocks and New Hampshire Reds.

Truslow Brothers have pioneered in the development, incubating, brooding, breeding and nutrition work since 1882. They were the first to realize the importance of disease control, and in conjunction with eminent chemists developed "Toxite," the disinfecting spray, well known to the poultry industry. Today "Truslow Quality" represents over half a century of practical poultry breeding.

Prices: Leghorns and Rocks —
\$11.50 per 100; \$99.50 per 1,000
New Hampshire Reds —
\$12.95 per 100; \$119.50 per 1,000

Positive guarantee as to delivery and livability.

Standard Grade Chicks

From the same hatchery from which we have had chicks for the past four years. We can refer you to customers who have bought these chicks each year for above period.

We quote as follows:
